M	SYSTEM FOR TRANSMITTING DIGITAL OVER A COMMUNICATION
<b>V</b>	
	NETWORK"; Docket No. 83016/F-P
	Please replace the paragraph beginning on page 34 line 29 with the
	following rewritten paragraph:
	In step 526 527, the authorized third party places an order with
	the fulfillment provider 70, via service provider 80, for the photo product, which
	includes the selected images from the first user's collection and the second user's
	collection. In step 528, high resolution versions of the images selected by the
2	authorized third party are transferred from the first user's high resolution
HU	collection to the fulfillment provider 70. This may occur immediately if the first
	user is currently on-line, or at a later time at the next routine communication
•	interval. In step 530, high resolution versions of the images selected by the
	authorized third party are transferred from the second user's high resolution
	collection to the fulfillment provider 70. In step 532, the fulfillment provider 70
	produces and ships the photo product selected by the authorized third party to the
	designated address provided by the authorized third party and bills the authorized
	third party for the photo product. In step 534, loyalty points are assigned to the
	first and second users, for providing the digital images which were used in the

photo product.--
